

... Marc Newson Brings Back Ikepod ... Hating Compact Fluorescent Light

November/December 2007 www.id-mag.com

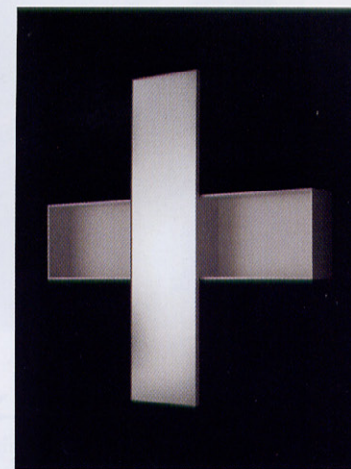

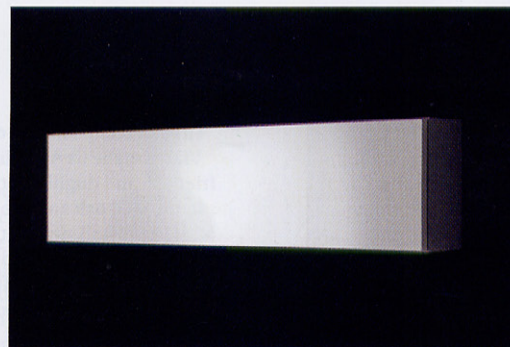

Mirrored medicine cabinets leave much to be desired: Most aren't tall enough to allow unobstructed views for people of differing heights, and open doors tend to smack you in the head as you spit out a mouthful of toothpaste. Dror Benshetrit's

+/- Cabinet for Boffi offers an elegant solution to both problems. Rather than swinging outward, its reflective panel pivots open to a vertical axis.

Contact seller for price.

As if the name weren't enough of a giveaway, one look at FutureSystems'

November/December 2007

The Year's Most

Most futons are a bitch to deploy, but the **Lean** sofa by Dror Benshetrit for BBB folds up or out smoothly, utilizing only gravity—no complicated hydraulics or bulging arm muscles necessary; \$4,000.
