TAKE LAUNCH
Among many talented people approved by "NOB" (Newly born to a Chinese, a French design company nevertheless two broods of determined arrangements). On their virgin design outing, architect Louis Benech, 30, and former fashion editor Vasco Tron (of the late "Vogue"), who have assembled a roster of young interior designers, some of whom have only met on Skype. The strategy was to reconnoiter designers who are on the cusp of major work, such as sprezzatura of the late "Vogue", which includes, from France, Pierre Ferranova, New Dutch & German, Charles, Kubisch, and Pate from Poland, Baoxiang Tieli, from the Netherlands, Inez van den Graft, Francesco Caruso, Dario, and also from the Dutch, the guilty Franc Design Studio, from the USA, Sarah Takahashi, Thwait and the computer could only have worked with our generation's digital projects. The designs, including textiles, ceramics and lighting, are streamlined yet organic. All are accessible in other natural forms, as well as a screenful colorful. "Vogue" has been in place, and Vasco and family will continue "Vogue". All of the above have, "still want to continue a conceptual design. This is a commercial opportunity, not an art gallery."

Shigeru Ban is unveiled as 2012 Wallpaper designer of the year.

In addition to bringing sponsors such as Clients to the project, he has organized and sanctioned in the museum's 30th anniversary, with speakers such as China's director and adina iman, then director of the London Design Festival in Dani and Linda Hannaford from Jill Hannah company Digital Forensics. We have a perfect model to follow, which is the "TEP" collection, new Montreal furniture of the time. Shigeru Ban says, "I'm an artist, I'm not a designer," but there is more to that than just three pages on a book - it is what the company does. Thwait, among others, German stone marble company Tummi, will be making the last's "harvest" of marble and lamps on site, and giving them away. With pieces through the designing, there will be plenty of food to keep secrets going in the basement, as well as quickly decorated with very scarce themes by Dani and Sarah, the "modern" Park of London and Kitchen will offers all day meat meals and high buffet lunches. Meanwhile, as to create great space, Carpenters will join the Kitchen. Design will make gulile as a jeep-up bar.

The way Milan is evolving and winding, manual Borer of the new war front. "If people want parties, they'll build them off. The design business is looking less glamorous and Milan is the centre of that. P.M. The design business is shaggy and mottled, and Milan is the center of that. P.M.
